Environments IT / OT / Cloud

RedTeam.
Advanced intrusion service

We perform controlled, real-world intrusions to identify your organisation's vulnerabilities, your level of detection and your internal capacity to protect yourself from threats.

GoldenTeam.
Governance, risk and compliance

We provide strategic advice on cyber security and technology risk, helping to increase the maturity of your organisation's IT security function.

BlueTeam.
Defensive security

We combine intelligence and technology to deliver effective cyber security services and solutions against the threats that can compromise the security of your organisation.

What does our SMARTSOC allow us to do?

Intelligence and technology come together in our SOCs to deliver effective cyber security services and solutions against the threats that can compromise your organisation's business.

+35.000
